

# The Devil Wears Prada 2

## Comedic One-Sheet

### General Use One / Two-Liners

- *The Devil Wears Prada* sequel took 20 years because that's how long straight America needed to learn "cerulean" isn't a Game of Thrones character.
- Some fans are upset it took 20 years for a sequel. At this rate, the third'll be called "*The Devil Is Buried in Prada*".
- The movie lost the box office to *The Super Mario Galaxy Movie* and *Project Hail Mary*, proving the only way to beat Meryl Streep is to literally leave the planet.
- The salaries for the movie's stars leaked online. The original was based on a book. The sequel is based on a checkbook.
- Assembling such a star-studded cast is no mean feat. My mom saw the sequel announcement and squealed, "Oh my god, they got Tibor Feldman?"
- Meryl Streep famously doesn't do sequels. It's just this, *Mamma Mia 2*, and *Sophie's Choice 2: The Re-choosening*.
- *The Devil Wears Prada 2* covers very similar story beats to the original. When asked about her major influences for the new script, the screenwriter answered, "Copy and paste."
- The sequel's romantic subplot is so undercooked it might give you salmonella.
- The movie has celebrities popping up at every turn. So many cameos it looks like George Santos's tax returns.
- Andy's polarizing boyfriend character does not return for the sequel. If you want to know why, ladies, just ask your boyfriend to explain it to you.

### Intros / Transitions

- Today we're discussing *The Devil Wears Prada 2*, the movie that proves the film industry, just like fashion, is cyclical.
- Welcome back! We were talking about *The Devil Wears Prada 2*, the movie in which Stanley Tucci proves it is possible to stay thin for 20 years while eating your bodyweight in pasta.
- Welcome back. We're discussing *The Devil Wears Prada 2*, the number one reason girlfriends across the nation recently learned the name Karl-Anthony Towns.
- Today we're talking about *The Devil Wears Prada 2*, obviously a work of fiction because everyone knows the real devil wears Tesla-branded puffy vests.
- Welcome back. We're talking about *The Devil Wears Prada 2*, the only movie made about magazines after the year 2010.
